on Adultwork

How to make money

You can do numerous things on your profile in order to earn money, not just webcam modelling aka Direct Cam.

Direct Cam is the quickest and easiest way to make money on Adultwork but we know that not all models are comfortable or confident enough to go straight online when they first start to get straight online, so these options are here as side hustle along side your webcamming or as opposed to webcamming if you choose never to go online.

Do not feel pressured to go straight online if you are not ready to, but please note, clients get a notification to advise that there is a new member, so new starters find their traffic boosted when they get online straight away. You will have an 8 hour boost when you first log into Direct Cam.

Your profile will be set to do all the features by your agent. But there are some that you will need to activate / set up yourself.

- Direct Cam - All your prices are set, and you're good to go. You'll need to log into the broadcaster and click "start" to be online.
- Text-chat only (called DirectIM) - You'll need to tick a button in settings and log into the broadcaster the same as you would to go on Direct Cam.
- SMS - Texting - You don't need to do anything, this is set up for clients to SMS you whenever.
- Phone Chat - You will need to activate this everytime you want to show as available. It also automatically turns you to offline after a certain amount of time without any calls.
- Wishlist - You will need to go and add whatever items you like to your Wishlist.
- Erotica - You will need to write and add this to your profile.
- Blogs - You will need to write and add this to your profile.
- Sell Photos - You will need to upload photos you wish to sell
- Sell Videos - You will need to upload photos you wish to sell
