09 Sunday	10 Monday	11 Tuesday	12 Wednesday	13 Thursday	14 Friday	15 Saturday

CLICK TO ADD A SHOW

\*Information/photos used directly from adultwork.com

# Create Show

Use these pages to schedule your new DirectCam Show. The show schedule is to advertise specific themed shows, not to indicate that you will simply be online.

## Details

Step 1 of 3

### Title \*

The show title is what people will see first in the show schedule. It should be specific to the show and relate to the events that will take place or be on offer.

### Summary \*

The summary should state the theme of your show e.g. Sindy does food sex or Jennys first day in the office.

### Category \*

Use your default category, or set a new one specific to the theme of your show.

Please ensure that you are advertising a specific show where you describe the events that will take place or be on offer.

### Image \*

Select an image that will represent yourself and the show you are scheduling.

 No file chosen

## Schedule

Step 2 of 3

1. **Choose Title of show**
2. **state what show involves**
3. **choose category**
4. **choose display image for show**
5. **click next**

Consent

Step 3 of 3

Members are required to perform checks and maintain records of any other persons that appear in their content. ([why is this necessary?](#))

I confirm that:

- I am the only person to appear in the content
- I have written consent for all persons appearing in this content
- I have verified the identity of all persons appearing in this content
- I have verified that all persons appearing in this content are over 18
- I have consent to distribute this content
- I can provide supporting documents on request

## Help for Service Providers

---

### Q. What is AdultWork.com TV?

- A.** AdultWork.com TV is a mini-site that builds on the DirectCam real-time webcam platform available to members of AdultWork.com. It provides visitors with simple access to DirectCammers and details of scheduled DirectCam Shows. Browse these pages or visit the main [webcam area](#) of the Site to get an idea of what's on offer.

---

### Q. Why should I do scheduled shows?

- A.** If you give members enough notice of your scheduled show and details of what the show will contain, not only do you get extra exposure, but you will increase your chances of building a bigger group audience and make far more income.

The maths is very simple 1 private customer @ 2 credits per minute versus 50 Group customers @ 1 credit per minute. This is also a very powerful tool for building your ratings that will in turn increase your exposure and income.

---

### Q. How do I appear in the category boxes on the TV Home page? ([here](#))

- A.** All members that have [set a category](#) for their shows will be included but those Featured Members will appear first. If you're interested in becoming featured, (which has many other benefits), [click here](#).

---

### Q. Can I get advance notice of potential group numbers for my scheduled show?

- A.** Yes. The number of members that have expressed an interest in watching your scheduled show is shown on your [DirectCam Show Schedule](#) page.

---

### Q. Where do I fill out my Scheduled show details?

- A.** You can do it [here](#) right now, but would normally do it via your [DirectCam Show Schedule](#) page.
-

**Q. I need to cancel a scheduled show (or change the details), how do I do that?**

**A.** Locate the show in your Show Schedule and click to edit it. If you wish to delete it then click the Delete Show button. You are prompted for a reason which is sent to any members that expressed an interest.

You can only change the show date and time if no one has expressed an interest in it. Otherwise you need to delete the show and re-create it with a new date or time.

**Q. I'm listed in the wrong category - how can I change it?**

**A.** Set your categories, strapline, supported modes and pricing via your [DirectCam Settings](#) page.

**Q. How do I offer and initiate 2-way DirectCam sessions?**

**A.** All versions of the DirectCam Broadcaster now support 2-Way Cam with one person at a time.

All you need to do is ask the client if he/she has a webcam and wishes to participate in 2-way.

To start a 2-way session, click the three dots icon next to the member in the User list and choose "Request Two-way".

The client will then need to confirm that they wish to use their webcam in their chat window.
