

Phone Chat

Phone Chat

There are two types of Phone Chats:

1 - Direct Chat - Where the clients calls you via Adultwork (your number is completely hidden) and the call is diverted to your mobile phone

2 - Pre-booked Phone Chat - Where a client books via Adultwork for you to call them.

Both are already set up on your profile, your agent would have done this for you when verifying you.

Phone chat is an amazing way to earn credits whilst out and about. You can have it on when out shopping, or out for dinner - Clients love being able to get hold of you whenever!

Direct Chat

This is already set up on your profile, but you will need to set yourself as available, you can do this when you log in (Screenshot on how to follow further on)

Direct Chat is where the clients calls you via Adultwork (your number is completely hidden) and the call is diverted to your mobile phone. They call you from your profile, like this:

The screenshot shows a 'Contact Me...' section with several options:

- To check out my **special offers**, [click here](#)**
1.90 credit(s) per minute in Group Mode [no need to book \(info\)](#)
2.98 credit(s) per minute in Private Mode
To see when I will be **online** for DirectCam, [click here](#) - Last Online: Yesterday at 17:53
- To webcam via **DirectCam** [click here](#)**
- To phone chat via **DirectChat** [click here](#)** (This option is circled in red)
- To book a **phone chat** session [click here](#)**
1.49 credit(s) per minute, when booking confirmed I call you
- To send me an **SMS** enter your message here:** 137 chars remaining [Send Now](#) [\(More Info.\)](#)

The client will then call a landline number and input their User ID and a special pin linking them to you. Your side, your mobile will ring like a normal phone call from a London 020 number, an automated voice will say "Hello, to accept a call from Adultwork Direct Chat client press 1, to reject the call, press 2.

Once you press 1 you will automatically be put through to the client. You do not know who the client is (you can see the clients username on your credit statement afterwards) You are paid per minute. We set your rates are set at 1.25 per minute (but you can change them) and be aware the client pays more due to VAT - So as you can see, Emily's are set at 1.25, but the client pays 1.49 credits per minute. (You receive 0.55 of the 1.25 so 68p take home per minute)

Direct Chat

This is already set up on your profile, but you will need to set yourself as available, you can do this when you log in like this from desktop:

Are you Available? Show your DirectCam Status on your own website ([more info.](#))
Apple Mac users can now offer DirectCam using the [Flash-based version of JustCamIt](#), ([settings](#))

You are configured as offering Webcam and Phone Chat services. Are you available for webcam/phone chat bookings now?

Note: Webcam Bookings have been disabled, please use DirectCam Special Offers instead. More information about this change can be found [here](#). Please ensure you are set-up correctly for DirectCam via your [Edit Profile Page](#).

Current Availability:

- I am available for **phone chat** bookings only
- I am not available at the moment

Post details of your 'Available Now' Status to Twitter

Include one of your profile pictures in the tweet

Phone/Direct Chat Only: Webcammers can tweet their online status from their [DirectCam Settings Page](#).

DirectCam Show Category: Tasty Twenties

[DirectCam Settings](#) [Continue / Skip >](#)

Note: We mark members as unavailable if a Phone Chat Booking Request is not accepted or rejected within 15 minutes. Most visitors are looking to phone chat immediately, not responding to a booking request within 15 minutes when you're supposed to be available is unreasonable. If you are made unavailable as a result of an elapsed booking request, you will not receive an SMS Message advising you of such.

Also: You can specify your availability and learn about the SMS options in the My Details Area of the site, under availability.

Make sure you are clicking "I am available for phone chat bookings only"

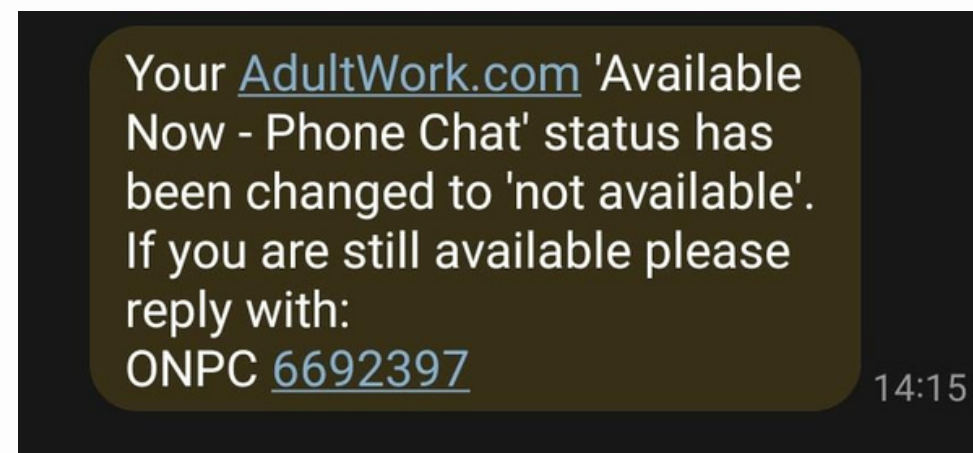

(This does not then mean you cannot then log into Direct Cam and cam, it just means you're showing as available for Direct Chat phone calls AS WELL)

To do it via the app, go to Menu (3 straight lines), click "My Availability" and then press the white circle so it goes the other side and the bar goes a light purple colour.

Direct Chat

If you do not get any calls via Direct Chat for 20 minutes, it will automatically log you off of showing as available, and send you this text:

To show as available again, go to: My details (hover over) Availability, Available now and re tick the box. Do not reply like it suggests or your phone provider will charge you.

Pre-booked Phone Chat

You do not need to do anything for this to be on, it's on constantly. Members that wish to have a Phone Chat session with you will submit a booking request form. You then need to review the details (date/time/amount of credits ie 5 minutes should be at least 5 credits. We normally suggest 1 credit per 1 minute of a phone chat booking.) The request will then be sent back for them to confirm. Once confirmed, the number the client has supplied will be shown, and you will need to call them at the time the session is due to take place. Please be aware, your credits earned from phone chat can take 24 hours to appear on your credit statement. and either accept or reject the booking.

If you accept the booking:

1. You will need to call the client at the time of the proposed session; the phone number will be displayed on the booking itself at the time of the session. Remember, you should not carry out any session until it has been confirmed by the client. Make sure you put 141 in front of the number to hide your number OR turn your caller ID off. *Please be aware it has been known that clients have had software that still shows your number. Pre-booked Phone chat, outbound calling is done at your o

Note: It is the service provider's responsibility to check that the session has been confirmed and that the date and amount of credits are correct before they accept the booking as we are unable to retrieve credits after the event.

Please be aware, your credits earned from phone chat can take 24 hours to appear on your credit statement.

Please see the process on how it works here
